What was your motivation to become a PGA Professional?

I was looking for my second career after the Navy. I felt it was important for me to find a career with which I could start each day with excitement and anticipation. Teaching golf was the hands down winner.

What is your specialty in the golf business?

My specialties include teaching, coaching, mentoring, instructing, guiding, cajoling or otherwise finding the right button for the many different students.

Please list any accomplishments (Awards, Certifications, and Tournaments.)

2009, 2010, 2011, Certificates of Appreciation from the Wounded Warrior Detachment of Kaneohe Bay, Marine Corps Base for the providing golf instruction and clinics PGA Class A 2006 Champion, Navy SouthWest Regional, Corpus Christie, TX 1987. Champion, Subic Bay Open (Philippines) 1991, Champion, 2008 Head Pro-Asst Pro, Hualaali, Hawaii.

What was your greatest moment in golf?

While stationed in Dallas, I was invited to have lunch with Byron Nelson and his new bride at the new Las Colinas facility. Our lunch

consisted of him asking me to hit balls at the range for about 45 minutes with him giving me guidance. In a way, it was also one of my worst moments because of my clothing choice and I have the pictures to prove it! Stylish then...mortified today.

What or who has had the greatest impact on your career?

PGA GM Todd Murata at the Kaneohe Klipper. He helped me as an Apprentice and consistently shows me and others the tip top caliber person he is by role-modeling the leadership and management skills we should all be using.

Besides golf, what else do you enjoy?

Playing slack-key guitar, trying to make my lawn look like a golf course, volunteering.

If you could give lessons to anyone in the world who would it be and what advice would you give?

I would give advice to Tiger Woods. I would say, "The past is the past, your future is NOW".

What is your favorite golf instruction tip?

"Dance with what brung ya". It's a nice way to let people know that a funky move in the golf swing is OK if it works for you.
